

“Choose Your Champion!”

How?

To get started right away just go to www.CareAndPrepare.Org. You will find links to choose an advocate to speak for you, should you be unable to speak for yourself – due to accident or illness.

Or make an appointment with one of our facilitators today by calling 817-247-1776.

Pioneering Partners: VYNCA, Vitas, Texas Cancer Specialists and Care & Prepare

"ACP for ALL"

Covid changed things. Texans are more aware that their healthcare status could change in an instance.

We have a death averse culture, so dying & end of life issues are rarely discussed even with some terminally ill patients. This is not an acceptable standard of healthcare.

Our Dream:

Provide All Texans with Advance Care Planning (ACP) & ability to retrieve those decisions by clinicians; our beta site will start in the Spring of 2021 in Ft. Worth & grow statewide.

Our Challenge:

To revolutionize the process of ACP in Texas by creating a registry of all Texan's ACP documents & make those medical wishes available so any physician with a web browser can know & honor those healthcare decisions. Few Texans have ACP documents; studies show our minority communities have even less. The elderly, terminally ill & underserved populations are struggling the most with Covid. Ours is a unique effort to reach the terminally ill, the frail & our minority community by embedding into physician's offices & other trusted partners.

ACP as it should be: Person-Centered, Integrated, Care Concordant & Accessible.

ACP as it is: Nonexistent, Institution specific, & rarely accessible.

We believe in = "**ACP for All.**"

Let's change this now for **All Texans!**

Medicine is making a quantum leap from a paper & patriarchal system, to shared decision making & digitization of consent & ACP documents are necessary steps for best outcomes. Your support could change everything! Thanks for supporting [Care & Prepare's](#) work in the community.
