Serious Illness Conversation (SIC)

Ever wondered if your Org or Health System could help terminally ill patients better?

June 27, 2019, we held our first Pilot program utilizing the SIC training. 4 physicians went through this new methodology and we had 3 observers from the C&P Board. The Serious Illness Conversation Training has more of an exploratory discussion leading into a compressed mentorship program element. All 4 physicians said they would recommend the training to other clinicians and several individuals are considering SIC Instructor training.

The **Serious Illness Conversation (SIC) Training** program is from **Ariadne Labs**, which is the result of their collaboration between **Harvard**, and **Brigham & Women's Hospital** that is focused on impacting healthcare systems.
